This Prospectus sets forth basic information about the Fund that you should know before investing. It should be read and retained for future reference.

The date of this Prospectus is April 30, 2018.

SUMMARY SECTION

Investment Objectives

The Kinetics Spin-off and Corporate Restructuring Fund (the “Fund”) seeks to achieve long-term growth of capital.

Fees and Expenses of the Fund

This table describes the fees and expenses you may pay if you buy and hold shares of the Spin-Off and Corporate Restructuring Fund. You may qualify for sales charge discounts for Advisor Class A shares if you and your family invest, or agree to invest in the future, at least \$50,000 in Advisor Class A shares of the Kinetics Funds. More information about these and other discounts is available from your financial professional and in the sections titled, “Description of Classes” beginning on page 30 of the Fund’s prospectus, in Appendix A to this Prospectus - Financial Intermediary Sales Charge Variations, and “Purchasing Shares” beginning on page 51 of the Fund’s statement of additional information.

	<u>Advisor Class A</u> <u>Shares</u>	<u>Advisor Class C</u> <u>Shares</u>	<u>Institutional</u> <u>Class Shares</u>	<u>No Load</u> <u>Class Shares</u>
Shareholder Fees				
<i>(fees paid directly from your investment)</i>				
Maximum sales charge (load) imposed on purchases (as a percentage of offering price)	5.75% ⁽¹⁾	None	None	None
Maximum deferred sales charge (load) (as a percentage of the lesser of the value redeemed or the amount invested)	None	1.00% ⁽²⁾	None	None
Redemption Fee (as a percentage of amount redeemed on shares held for 30 days or less, if applicable)	2.00%	2.00%	2.00%	2.00%
Wire fee	\$15	\$15	\$15	\$15
Overnight check delivery fee for weekday	\$25	\$25	\$25	\$25
Retirement account fees (annual maintenance fee)	\$15	\$15	\$15	\$15
Annual Fund Operating Expenses				
<i>(expenses that you pay each year as a percentage of the value of your investment)</i>				
Management fees	1.00%	1.00%	1.00%	1.00%
Distribution and service (Rule 12b-1) fees	0.25%	0.75%	None	None
Other expenses	0.82%	1.07%	0.83%	0.70%
Shareholder service fee	0.25%	0.25%	0.20%	0.25%
Other Operating Expenses ⁽³⁾	<u>0.57%</u>	<u>0.82%</u>	<u>0.63%</u>	<u>0.45%</u>
Total annual fund operating expenses	2.07%	2.82%	1.83%	1.70%
Fees waiver and/or expenses reimbursements ⁽⁵⁾	<u>-0.57%</u>	<u>-0.57%</u>	<u>-0.58%</u>	<u>-0.25%</u>
Total annual fund operating expenses after fee waiver and/or expense reimbursements⁽⁴⁾	<u>1.50%</u>	<u>2.25%</u>	<u>1.25%</u>	<u>1.45%</u>

(1) No initial sales charge is applied to purchases of \$1 million or more.

(2) A CDSC of 1.00% will be charged on Advisor Class C Share purchases that are redeemed in whole or in part within 12 months of purchase.

(3) The Horizon Spin-Off and Corporate Restructuring Fund, a series of Investment Managers Series Trust (the "Predecessor Fund"), reorganized into the Fund following the close of business on December 8, 2017. "Other Expenses" are estimated for the current fiscal year.

(4) The Fund’s advisor, Kinetics Asset Management, LLC (“Kinetics” or “Investment Adviser”) has contractually agreed to reimburse the Fund the portion of the shareholder servicing fee in excess of 0.05% of average daily net assets until at least September 30, 2019. In addition, the Investment Adviser has contractually agreed to waive its fees and/or pay for operating

expenses of the Fund to ensure that total annual fund operating expenses (excluding, as applicable, front-end or contingent deferred loads, taxes, leverage interest, brokerage commissions, acquired fund fees and expenses (as determined in accordance with Form N-1A), expenses incurred in connection with any merger or reorganization and extraordinary expenses such as litigation expenses) do not exceed 1.50%, 2.25%, 1.25% and 1.45% of the average daily net assets of the Advisor Class A Shares, Advisor Class C Shares, Institutional Shares and No Load Shares, respectively. This agreement is in effect until September 30, 2019, and may be terminated before that date only by the Company's Board of Directors. The Fund's Investment Adviser is permitted to seek reimbursement from the Fund for a period ending three full years after the date of the waiver or payment. Any reimbursement is limited to the lesser of the Expense Cap in effect at the time of the waiver and the Expense Cap in effect at the time of reimbursement.

Example. This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. This Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of these periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same (taking into account the expense limitation until its expiration). Although your actual costs may be higher or lower, based on these assumptions your cost would be:

	One Year	Three Years	Five Years	Ten Years
Advisor Class A	\$719	\$1,135	\$1,575	\$2,794
Advisor Class C	\$328	\$820	\$1,439	\$3,106
Institutional Class	\$127	\$519	\$936	\$2,100
No Load Class	\$148	\$511	\$900	\$1,988

You would pay the following expenses if you did not redeem your shares:

	One Year	Three Years	Five Years	Ten Years
Advisor Class C	\$228	\$820	\$1,439	\$3,106

Portfolio Turnover. The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Predecessor Fund's portfolio turnover rate was 11% and the Fund's portfolio turnover rate was 0% of the average value of its portfolio.

Principal Investment Strategy

Under normal market conditions, the Fund will pursue its investment objective by investing at least 80% of its net assets (plus borrowings for investment purposes) in equity securities of spin-off companies, companies subject to other forms of corporate restructuring, parents of any such companies, and publicly traded shareholder activist holding companies which, by way of their shareholder ownership in other companies, have caused such other companies to undergo spin-offs and other forms of corporate restructurings. The Fund is non-diversified. The Fund considers a spin-off company or a company subject to a corporate restructuring to be any company that has experienced one of the following events within five years of the Fund's investment in the company: a spin-off distribution of stock of a subsidiary company by its parent company to parent company shareholders; an equity "carve-out" or "partial initial public offering" in which a parent company sells a percentage of the equity of a subsidiary in a public offering; or the parent company of any such company after the public disclosure of the corporate restructuring. The Fund may invest in a parent company of a spin-off company or a company subject to a corporate restructuring, or a publicly traded shareholder activist holding company which has caused such other companies to undergo the spin-off or corporate restructuring, after the public disclosure of the planned spin-off or corporate restructuring, during the spin-off or corporate restructuring process, or after the actual spin-off or corporate restructuring. If the Fund invests in a parent company of a spin-off company or a company subject to a corporate restructuring prior to a spin-off or restructuring, the Fund would, upon the completion of the spin-off or restructuring,

receive the shares of the spin-off company. The Fund may retain shares of both the parent and the spin-off company, the shares of only one, or the shares of neither.

The Fund will invest in both U.S. and foreign equity stocks. The Fund's investments in foreign equity stocks may be in both developed and emerging markets. The Fund's equity investments may include common stock, preferred stock, securities convertible into common stock, warrants, rights and other equity securities having the characteristics of common stock (such as depositary receipts). The Fund may invest in any size company, including small- and medium-sized companies, and further may invest in companies which are financially distressed.

The Fund may invest up to 20% of its assets in companies that, for a variety of reasons, the Fund's Investment Adviser believes may have the potential to be subject to a spin-off or corporate restructuring within a reasonable period of time, such as a similar company may have recently announced a spin-off; the company may be under investor pressure to consider strategic alternatives; or the current segments of the company may not have a synergistic fit, and as a result the company's stock trades at a discount to that of its closest peers. The Fund may invest in potential spin-off and corporate restructuring companies that the Fund's Investment Adviser believes may, based on its in-house research, have the most favorable risk/reward characteristics.

The Fund's Investment Adviser seeks to avoid short-term investing and significant portfolio turnover. The Investment Adviser utilizes its in-house research capabilities to seek to identify businesses at inflection points in their corporate life cycles with what the Investment Adviser believes are attractive risk/reward profiles. The Fund's Investment Adviser believes that returns are often the result of the market's inefficiency in initially valuing corporate restructurings due in part to lack of coverage by the investment community and initial indiscriminate selling pressure. For instance, companies that have been "spun-off" from their corporate parents by way of corporate restructurings may not be followed closely by financial sector analysts, which could lead to advantageous disparities between a company's valuation and growth prospects relative to its pricing in the marketplace. The Fund's Investment Adviser uses a process that focuses primarily on the analysis of individual companies rather than on the industry in which the company may operate. This "bottom-up" approach may result in multiple investments in the same sector or industry. However, the Investment Adviser pays careful attention to the limitation of sector and industry concentrations.

Principal Investment Risks

Risk is inherent in all investing. A summary description of certain principal risks of investing in the Fund is set forth below. Before you decide whether to invest in the Fund, carefully consider these risk factors associated with investing in the Fund, which may cause investors to lose money. There can be no assurance that the Fund will achieve its investment objective.

- ▶ *Management and Strategy Risk:* The value of your investment depends on the judgment of the Investment Adviser about the quality, relative yield, value or market trends affecting a particular security, issuer, sector or region, which may prove to be incorrect. Investment strategies employed by the Investment Adviser in selecting investments for the Fund may not result in an increase in the value of your investment or in overall performance equal to that of other investments.
- ▶ *Market Risk:* The market price of a security or instrument may decline, sometimes rapidly or unpredictably, due to general market conditions that are not specifically related to a particular company, such as real or perceived adverse economic or political conditions throughout the world, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. The market value of a security or instrument also may decline because of factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry.
- ▶ *Equity Risk:* The value of the equity securities held by the Fund may fall due to general market and economic conditions, perceptions regarding the industries in which the issuers of securities held by

the Fund participate, or factors relating to specific companies in which the Fund invests.

- ▶ *Event Driven Risk:* The Investment Adviser's evaluation of the outcome of a proposed spin-off or corporate restructuring may prove incorrect and the Fund's return on an investment may be negative. Even if the Investment Adviser's judgment regarding the likelihood of a specific outcome proves correct, the expected event may be delayed or completed on terms other than those originally proposed, which may cause the Fund to lose money or fail to achieve a desired rate of return. In addition, the ability of a shareholder activist holding company to effectuate a spin-off or restructuring is subject to the same risks and the Investment Adviser's evaluation of such a company's capabilities may be incorrect.
- ▶ *Small-cap and Mid-cap Company Risk:* The securities of small-capitalization or mid-capitalization companies may be subject to more abrupt or erratic market movements and may have lower trading volumes or more erratic trading than securities of larger, more established companies or market averages in general. In addition, such companies typically are more likely to be adversely affected than large capitalization companies by changes in earning results, business prospects, investor expectations or poor economic or market conditions.
- ▶ *Large-Cap Company Risk:* Larger, more established companies may be unable to attain the high growth rates of successful, smaller companies during periods of economic expansion.
- ▶ *Specific Strategy/Research Risk:* The Fund's Investment Adviser and an affiliate of the Fund's Investment Adviser author and collaborate on research reports regarding spin-off related companies for institutional subscribers. Consistent with its compliance policies and procedures, the Investment Adviser may impose for a period of time an internal restriction in the trading in certain securities related to spin-off companies, corporate restructuring companies and/or their parent companies discussed in these research reports. As a result, the Fund may be prevented from trading in such securities at their optimal value or time as might otherwise have been permitted if such restrictions were not in effect. In addition, if subscribers to the research services buy or sell securities that are described in the reports, it could potentially have an adverse effect on the price of securities bought or sold by the Fund.
- ▶ *Preferred Stock Risk:* Preferred stock represents an equity interest in a company that generally entitles the holder to receive, in preference to the holders of other stocks such as common stock, dividends and a fixed share of the proceeds resulting from a liquidation of the company. The market value of preferred stock is subject to company-specific and market risks applicable generally to equity securities and is also sensitive to changes in the company's creditworthiness, the ability of the company to make payments on the preferred stock, and changes in interest rates, typically declining in value if interest rates rise.
- ▶ *Convertible Securities Risk:* Convertible securities are subject to market and interest rate risk and credit risk. When the market price of the equity security underlying a convertible security decreases the convertible security tends to trade on the basis of its yield and other fixed income characteristics, and is more susceptible to credit and interest rate risks. When the market price of such equity security rises, the convertible security tends to trade on the basis of its equity conversion features and be more exposed to market risk. Convertible securities are typically issued by smaller capitalized companies with stock prices that may be more volatile than those of other companies.
- ▶ *Warrants and Rights Risk:* Warrants and rights may lack a liquid secondary market for resale. The prices of warrants may fluctuate as a result of speculation or other factors. Warrants can provide a greater potential for profit or loss than an equivalent investment in the underlying security. Prices of warrants do not necessarily move in tandem with the prices of their underlying securities and therefore are highly volatile and speculative investments. Failing to exercise subscription rights to purchase common stock would dilute the Fund's interest in the issuing company. The market for

such rights is not well developed, and the Fund may not always realize full value on the sale of rights.

- ▶ *Liquidity Risk:* Due to a lack of demand in the marketplace or other factors, the Fund may not be able to sell some or all of the investments that it holds, or it may only be able to sell those investments at less than desired prices.
- ▶ *Valuation Risk:* The sales price the Fund could receive for any particular portfolio investment may differ from the Fund's valuation of the investment, particularly for securities that trade in thin or volatile markets or that are valued by the Fund using a fair value methodology. Investors who purchase or redeem Fund shares on days when the Fund is holding fair-valued securities may receive fewer or more shares or lower or higher redemption proceeds than they would have received if the Fund had not fair-valued the security or had used a different valuation methodology.
- ▶ *Distressed Securities Risk:* Financially distressed securities involve considerable risk that can result in substantial or even total loss of the Fund's investment. It is often difficult to obtain information as to the true condition of financially distressed securities. These securities are often subject to litigation among the participants in bankruptcy or reorganization proceedings.
- ▶ *Foreign Investment Risk:* The prices of foreign securities may be more volatile than the prices of securities of U.S. issuers because of economic and social conditions abroad, political developments and changes in the regulatory environments of foreign countries. In addition, changes in exchange rates and interest rates may adversely affect the values of the Fund's foreign investments. Foreign companies are generally subject to different legal and accounting standards than U.S. companies, and foreign financial intermediaries may be subject to less supervision and regulation than U.S. financial firms. Foreign securities include American Depositary Receipts ("ADRs") and Global Depositary Receipts ("GDRs"). Unsponsored ADRs and GDRs are organized independently and without the cooperation of the foreign issuer of the underlying securities, and involve additional risks because U.S. reporting requirements do not apply and the issuing bank will recover shareholder distribution costs from changes in share prices and payment of dividends.
- ▶ *Emerging Markets Risk:* Many of the risks with respect to foreign investments are more pronounced for investments in issuers in developing or emerging market countries. Emerging market countries tend to have more government exchange controls, more volatile interest and currency exchange rates, less market regulation, and less developed economic, political and legal systems than those of more developed countries. In addition, emerging market countries may experience high levels of inflation and may have less liquid securities markets and less efficient trading and settlement systems.
- ▶ *Currency Risk:* The values of investments in securities denominated in foreign currencies increase or decrease as the rates of exchange between those currencies and the U.S. Dollar change. Currency conversion costs and currency fluctuations could erase investment gains or add to investment losses. Currency exchange rates can be volatile and are affected by factors such as general economic conditions, the actions of the U.S. and foreign governments or central banks, the imposition of currency controls, and speculation.
- ▶ *Initial Public Offerings Risk:* The Fund may purchase securities of companies in IPOs. Special risks associated with these securities may include limited numbers of shares available for trading, unseasoned trading, lack of investor knowledge of the companies and the companies' limited operating histories. These factors may contribute to substantial price volatility for the shares of these companies.
- ▶ *Non-Diversification Risk:* The Fund is classified as "non-diversified," which means the Fund may invest a larger percentage of its assets in the securities of a smaller number of issuers than a diversified fund. Investment in securities of a limited number of issuers exposes the Fund to greater market risk and potential losses than if its assets were diversified among the securities of a greater

number of issuers.

Who may want to invest?

The Fund may be appropriate for investors who:

- wish to diversify their portfolios;
- wish to generate income and capital; and
- are comfortable with the risks described herein.

Performance

The performance information provided below indicates some of the risks of investing in the Fund by comparing the Fund with the performance of a broad-based market index. The Fund's past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future.

Before the Fund commenced operations, all of the assets and liabilities of the Predecessor Fund were transferred to the Fund in a tax-free reorganization (the "Reorganization"). The Reorganization occurred on December 8, 2017. As a result of the Reorganization, the Fund assumed the performance and accounting history of the Predecessor Fund prior to the date of the Reorganization. Performance results shown in the bar chart and the performance table below for the period through December 31, 2016 reflect the performance of the Predecessor Fund. On February 11, 2014, the Predecessor Fund's principal investment strategy changed. The performance information for periods prior to that date is attributable to the Predecessor Fund's previous principal investment strategy.

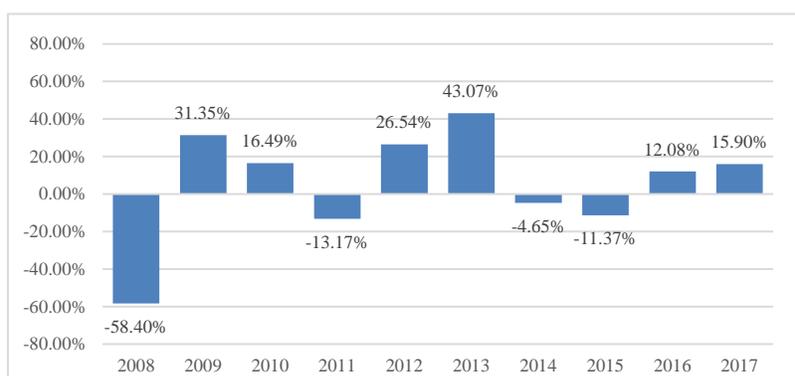

The performance information for the period prior to October 10, 2009, is that of the Liberty Street Horizon Fund, a series of the Forum Funds Trust (the "Liberty Street Fund"). The Predecessor Fund acquired the assets and liabilities of the Liberty Street Fund in a reorganization on March 16, 2007. The Liberty Street Fund's performance and financial history were adopted by the Predecessor Fund and, for periods prior to October 10, 2009, are included in the Fund's performance and financial history.

The performance of the Fund reflects the performance of the Predecessor Fund, which had substantially similar investment strategies. The bar chart shows performance of the Fund's Institutional shares. Sales loads are not reflected in the bar chart, and if those charges were included, returns would be less than those shown. Advisor Class A and Advisor Class C shares performance would be lower than the Institutional Class performance because of the higher expenses paid by Advisor Class A and Advisor Class C shares. No Load Shares had not commenced operations as of the date of this Prospectus.

Updated performance information is available on the Fund's website at <http://www.kineticsfunds.com> or by calling the Fund toll-free at (800) 930-3828.

Important note about performance reflecting the Fund's prior investment strategy. The performance shown for periods prior to February 11, 2014 reflects a previous investment strategy. Effective February 11, 2014, the Fund's investment strategy was changed to focus exclusively on spin-offs and other forms of corporate restructuring.

Calendar Year Total Return (before taxes) for Institutional Class Shares

Best Quarter:	24.53%	June 30, 2009
Worst Quarter:	-29.16%	December 31, 2008

The after-tax returns for the Fund’s Institutional Class shares as shown in the following table are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Your actual after-tax returns depend on your tax situation and may differ from those shown. If you own Fund shares in a tax-deferred account, such as a 401(k) plan or an individual retirement account (“IRA”), the information on after-tax returns is not relevant to your investment. After-tax returns are shown for Advisor Class A shares only. After-tax returns for Advisor Class C shares will differ. The Return After Taxes on Distributions and Sale of Fund Shares is higher than other return figures when a capital loss occurs upon the redemption of Fund shares.

Average Annual Total Returns (for the Periods Ended December 31, 2017)

	1 Year	5 Years	10 Years	Since Inception	Inception Date/From
Institutional Class — Return Before Taxes	15.90%	9.45%	0.94%	1.33%	July 11, 2007
Institutional Class — Return After Taxes on Distributions	14.76%	9.14%	0.67%	1.06%	July 11, 2007
Institutional Class — Return After Taxes on Distributions and Sale of Fund Shares	9.93%	7.48%	0.71%	1.02%	July 11, 2007
Advisor Class A Shares — Return Before Taxes	8.96%	8.16%	0.23%	1.36%	May 4, 2007
Advisor Class C Shares — Return Before Taxes	13.74%	8.43%	0.09%	1.15%	May 24, 2007
No Load Class Shares — Return Before Taxes	N/A	N/A	N/A	3.05%	December 11, 2017
S&P 500 Index (reflects no deduction for fees, expenses or taxes)	21.83%	15.79%	8.50%	7.84%	July 11, 2007

Management

Investment Adviser. Kinetics Asset Management LLC is the Fund’s investment adviser.

Portfolio Managers. Steven M. Bregman and Murray Stahl have served as the portfolio managers of the Fund since its inception in May 2007 and are jointly and primarily responsible for the day-to-day management of the Fund's portfolio.

<i>Investment team member</i>	<i>Primary Title</i>	<i>Years of Service with the Fund</i>

Purchase and Sale of Fund Shares

You may purchase, exchange or redeem Fund shares on any business day by written request via mail (Kinetics Mutual Funds – The Kinetics Spin-off and Corporate Restructuring Fund, c/o U.S. Bancorp Fund Services, LLC, P.O. Box 701, Milwaukee, Wisconsin 53201-0701), by telephone at 1-800-930-3828, or through a financial intermediary. You may also purchase or redeem Fund shares by wire transfer. The minimum initial investment for both regular accounts and IRAs is \$2,500 (\$2,000 for Coverdell Education Savings Accounts). There is no minimum on subsequent investments for all account types. To purchase shares of the Fund, you must invest at least the minimum amount.

Minimum Investments	To Open Your Account	To Add to Your Account
Advisor A and Advisor C Shares		
Standard Accounts	\$2,500	\$0
Traditional and Roth IRA Accounts	\$2,500	\$0
Accounts with Systematic Investment Plans	\$2,500	\$0
Qualified Retirement Plans	\$2,500	\$0
No-Load Shares	\$2,500	\$0
Institutional Shares		
All Accounts	\$1,000,000	\$0

Fund shares are redeemable on any business day the New York Stock Exchange (the “NYSE”) is open for business by written request or by telephone.

Tax Information

Unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or an individual retirement account, the Fund’s distributions will generally be taxable to you as ordinary income or capital gains, and you will generally recognize gain or loss when you redeem shares.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary, the Fund and its related companies (including the Investment Adviser) may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary to recommend the Fund over another investment. Ask your financial adviser or visit your financial intermediary’s website for more information.

ADDITIONAL INFORMATION ABOUT THE FUND'S INVESTMENTS

Investment Objective

The Fund's investment objective is to achieve long-term growth of capital. There is no assurance that the Fund will achieve its investment objective.

The Fund's investment objective is not fundamental and may be changed by the Board of Directors of the Fund without shareholder approval, upon at least 60 days' prior written notice to shareholders. The Fund's investment strategies and policies may be changed from time to time without shareholder approval or prior written notice, unless specifically stated otherwise in this Prospectus or the Statement of Additional Information ("SAI").

Principal Investment Strategies

Under normal market conditions, the Fund will pursue its investment objective by investing at least 80% of its net assets (plus borrowings for investment purposes) in equity securities of spin-off companies, companies subject to other forms of corporate restructuring, parents of any such companies, and publicly traded shareholder activist holding companies which, by way of their shareholder ownership in other companies, have caused such other companies to undergo spin-offs and other forms of corporate restructurings. The Fund considers a spin-off company or a company subject to a corporate restructuring to be any company that has experienced one of the following events within five years of the Fund's investment in the company: a spin-off distribution of stock of a subsidiary company by its parent company to parent company shareholders; an equity "carve-out" or "partial initial public offering" in which a parent company sells a percentage of the equity of a subsidiary in a public offering; or the parent company of any such company after the public disclosure of the corporate restructuring. The Fund may invest in a parent company of a spin-off company or a company subject to a corporate restructuring, or a publicly traded shareholder activist holding company which has caused such other companies to undergo the spin-off or corporate restructuring, after the public disclosure of the planned spin-off or corporate restructuring, during the spin-off or corporate restructuring process, or after the actual spin-off or corporate restructuring. If the Fund invests in a parent company of a spin-off company or a company subject to a corporate restructuring prior to a spin-off or restructuring, the Fund would, upon the completion of the spin-off or restructuring, receive the shares of the spin-off company. The Fund may retain shares of both the parent and the spin-off company, the shares of only one, or the shares of neither.

The Fund will invest in both U.S. and foreign equity stocks. The Fund's investments in foreign equity stocks may be in both developed and emerging markets. The Fund's equity investments may include common stock, preferred stock, securities convertible into common stock, warrants, rights and other equity securities having the characteristics of common stock (such as depositary receipts). The Fund may invest in any size company, including small- and medium-sized companies, and further may invest in companies which are financially distressed. In addition, under certain market conditions, the Fund may invest in a company at the time of its IPO.

The Fund may invest up to 20% of its assets in companies that, for a variety of reasons, the Investment Adviser believes may have the potential to be subject to a future spin-off or corporate restructuring, including instances in which a similar company may have recently announced a spin-off; the company may be under investor pressure to consider strategic alternatives; or the current segments of the company may not have a synergistic fit, and as a result the company's stock trades at a discount to that of its closest peers. The Fund may invest in potential spin-off and corporate restructuring companies that the Investment Adviser believes may, based on its in-house research, have the most favorable risk/reward characteristics.

The Investment Adviser's Process. The Investment Adviser seeks to avoid short-term investing and significant portfolio turnover. The Investment Adviser utilizes its in-house research capabilities to seek to identify businesses at inflection points in their corporate life cycles with what the Investment Adviser believes are attractive risk/reward profiles. The Investment Adviser believes that returns are often the result of the market's inefficiency in initially valuing corporate restructurings due in part to lack of coverage by the investment community and initial indiscriminate selling pressure. For instance, companies that have been

"spun-off" from their corporate parents by way of corporate restructurings may not be followed closely by financial sector analysts, which could lead to advantageous disparities between a company's valuation and growth prospects relative to its pricing in the marketplace. The Investment Adviser uses a process that focuses primarily on the analysis of individual companies rather than on the industry in which the company may operate. This "bottom-up" approach may result in multiple investments in the same sector or industry. However, the Investment Adviser pays careful attention to the limitation of sector and industry concentrations.

The Fund may invest in other securities of either a parent company spinning-off securities or of the spin-off company, such as preferred stock, warrants, tracking stocks, contingent value rights and other spin-off equity securities.

The Investment Adviser generally sells the Fund's investments if the Investment Adviser determines that the characteristics that resulted in the original purchase decision have changed materially, the investment is no longer earning a return commensurate with its risk, the Investment Adviser identifies other investments with more attractive valuations and return characteristics, or the Fund requires cash to meet redemption requests.

Cash and Temporary Defensive Positions. The Fund generally holds a portion of its assets in cash or high quality, short-term debt obligations and money market instruments for reserves to cover redemptions and unanticipated expenses. In addition, when the risk/reward profile for portfolio securities appears unfavorable, or when the Investment Adviser believes price valuations are not attractive, the Investment Adviser may, but is not required to, allow the Fund's cash position to increase rather than purchase securities that fail to meet its investment criteria. In addition, there may be times when the Investment Adviser may, but is not required to, respond to adverse market, economic, political or other considerations by causing the Fund's cash position to increase, and may invest up to 100% of the Fund's assets in high quality, short-term debt securities or other defensive investments for temporary defensive purposes. In addition, during temporary defensive periods, the Investment Adviser may utilize various strategic transactions to hedge the portfolio or individual securities in the portfolio to attempt to mitigate risks, including the purchase and sale of put and call options. Temporary defensive periods may extend for a considerable period of time. During temporary defensive periods, the Fund may not be able to achieve its investment objective and, instead, may focus on preserving its assets or mitigating risks. To the extent the Fund uses a money market fund for investment of cash, there will be some duplication of expenses because the Fund would bear its pro rata portion of such money market fund's advisory fees and operational expenses.

Principal Risks of Investing

Risk is inherent in all investing. A summary description of certain principal risks of investing in the Fund is set forth below. Before you decide whether to invest in the Fund, carefully consider these risk factors associated with investing in the Fund, which may cause investors to lose money. There can be no assurance that the Fund will achieve its investment objective.

Management and Strategy Risk. The value of your investment depends on the judgment of the Investment Adviser about the quality, relative yield, value or market trends affecting a particular security, issuer, sector or region, which may prove to be incorrect. Investment strategies employed by the Investment Adviser in selecting investments for the Fund may not result in an increase in the value of your investment or in overall performance equal to that of other investments.

Market Risk. An investment in the Fund is subject to investment risk, including the possible loss of the entire principal amount that you invest. The Fund's share price may be affected by a sudden, sometimes rapid or unpredictable, decline in the market value of an investment, or by an overall decline in the stock market. Market risk may affect a single issuer, industry, sector of the economy or the market as a whole.

Equity Risk. The value of equity securities held by the Fund may fall due to general market and economic conditions, perceptions regarding the industries in which the issuers of securities held by the Fund participate, or factors relating to specific companies in which the Fund invests. The price of common stock of an issuer

in the Fund's portfolio may decline if the issuer fails to make anticipated dividend payments because, among other reasons, the financial condition of the issuer declines. Common stock is subordinated to preferred stocks, bonds and other debt instruments in a company's capital structure in terms of priority with respect to corporate income, and therefore will be subject to greater dividend risk than preferred stocks or debt instruments of such issuers. In addition, while broad market measures of common stocks have historically generated higher average returns than fixed income securities, common stocks have also experienced significantly more volatility in those returns.

Event-Driven Risk. The Investment Adviser's evaluation of the outcome of a proposed spin-off or corporate restructuring may prove incorrect and the Fund's return on an investment may be negative. Even if the Investment Adviser's judgment regarding the likelihood of a specific outcome proves correct, the expected event may be delayed or completed on terms other than those originally proposed, which may cause the Fund to lose money or fail to achieve a desired rate of return. These risks may be realized for a variety of reasons, such as the inability to finance a transaction, lack of regulatory approval from state, federal or international agencies or failure of shareholders to approve a transaction. In addition, the ability of a shareholder activist holding company to effectuate a spin-off or restructuring is subject to the same risks and the Investment Adviser's evaluation of such a company's capabilities may be incorrect.

Small-Cap and Mid-Cap Companies Risk. Investing in small-capitalization or mid-capitalization companies generally involves greater risks than investing in large-capitalized companies. Small- or mid-cap companies may have limited product lines, markets or financial resources or may depend on the expertise of a few people, and may be subject to more abrupt or erratic market movements than securities of larger, more established companies or the markets in general. Many small capitalization companies may be in the early stages of development. Since equity securities of smaller companies may lack sufficient market liquidity and may not be regularly traded, it may be difficult or impossible to sell securities at an advantageous time or desirable price.

Large-Cap Company Risk. Larger, more established companies may be unable to attain the high growth rates of successful, smaller companies during periods of economic expansion. In addition, large-capitalization companies may be unable to respond quickly to new competitive challenges, such as changes in technology and consumer tastes, and may be more prone to global economic risks.

Specific Strategy/Research Risk. The Investment Adviser and an affiliate of the Investment Adviser author and collaborate on research reports regarding spin-off related companies for institutional subscribers. Consistent with its compliance policies and procedures, the Investment Adviser may impose for a period of time an internal restriction in the trading in certain securities related to spin-off companies, corporate restructuring companies and/or their parent companies discussed in these research reports. As a result, the Fund may be prevented from trading in such securities at their optimal value or time as might otherwise have been permitted if such restrictions were not in effect. In addition, if subscribers to the research services buy or sell securities that are described in the reports, it could potentially have an adverse effect on the price of securities bought or sold by the Fund.

Preferred Stock Risk. Preferred stock represents an equity interest in a company that generally entitles the holder to receive, in preference to the holders of other stocks such as common stocks, dividends and a fixed share of the proceeds resulting from a liquidation of the company. Preferred stocks may pay fixed or adjustable rates of return. The market value of preferred stock is subject to issuer-specific and market risks applicable generally to equity securities and is sensitive to changes in the issuer's creditworthiness, the ability of the issuer to make payments on the preferred stock and changes in interest rates, typically declining in value if interest rates rise. In addition, a company's preferred stock generally pays dividends only after the company makes required payments to holders of its bonds and other debt. Therefore the value of preferred stock will usually react more strongly than bonds and other debt to actual or perceived changes in the company's financial condition or prospects.

Convertible Securities Risk. Convertible securities are securities that are convertible into or exchangeable

for common or preferred stock. The values of convertible securities may be affected by changes in interest rates, the creditworthiness of their issuer, and the ability of the issuer to repay principal and to make interest payments. A convertible security tends to perform more like a stock when the underlying stock price is high and more like a debt security when the underlying stock price is low. A convertible security is not as sensitive to interest rate changes as a similar non-convertible debt security and generally has less potential for gain or loss than the underlying stock.

Warrants and Rights Risk. A warrant gives the holder a right to purchase, at any time during a specified period, a predetermined number of shares of common stock at a fixed price. Unlike a convertible debt security or preferred stock a warrant does not pay fixed dividends. A warrant may lack a liquid secondary market for resale. The price of a warrant may fluctuate as a result of speculation or other factors. In addition, the price of the underlying security may not reach, or have reasonable prospects of reaching, a level at which the warrant can be exercised prudently (in which case the warrant may expire without being exercised, resulting in a loss of the Fund's entire investment in the warrant). The failure to exercise subscription rights to purchase common shares would result in the dilution of the Fund's interest in the issuing company.

Liquidity Risk. Due to a lack of demand in the marketplace or other factors, the Fund may not be able to sell some or all of the investments that it holds, or may only be able to sell those investments at less than desired prices. Liquidity risk arises, for example, from small average trading volumes, trading restrictions, or temporary suspensions of trading. Liquidity risk may also refer to the risk that the Fund will not be able to pay redemption proceeds within the allowable time period because of unusual market conditions, an unusually high volume of redemption requests, or other reasons. To meet redemption requests, the Fund may be forced to sell securities at an unfavorable time and/or under unfavorable conditions.

Valuation Risk. Many factors may influence the price at which the Fund could sell any particular portfolio investment. The sales price may well differ—higher or lower—from the Fund's last valuation, and such differences could be significant, particularly for illiquid securities and securities that trade in relatively thin markets and/or markets that experience extreme volatility. If market conditions make it difficult to value some investments, the Fund may value these investments using more subjective methods, such as fair value methodologies. Investors who purchase or redeem Fund shares on days when the Fund is holding fair-valued securities may receive fewer or more shares, or lower or higher redemption proceeds, than they would have received if the Fund had not fair-valued the securities or had used a different valuation methodology. The value of foreign securities, certain fixed income securities, and currencies may be materially affected by events after the close of the market on which they are valued but before the Fund determines its net asset value.

Distressed Securities Risk. Financially distressed securities involve considerable risk that can result in substantial or even total loss of the Fund's investment. It is often difficult to obtain information as to the true condition of financially distressed securities. These securities are often subject to litigation among the participants in bankruptcy or reorganization proceedings. Such investments may also be adversely affected by federal and state laws relating to, among other things, fraudulent transfers and other voidable transfers or payments, lender liability and a bankruptcy court's power to disallow, reduce, subordinate or disenfranchise particular claims. These and other factors contribute to above-average price volatility and abrupt and erratic movements of the market prices of these securities. In addition, the spread between the bid and asked prices of such securities may be greater than normally expected and it may take a number of years for the market prices of such securities to reflect their intrinsic values.

Foreign Investment Risk. Investments in foreign securities are affected by risk factors generally not thought to be present in the United States. The prices of foreign securities may be more volatile than the prices of securities of U.S. issuers because of economic and social conditions abroad, political developments, and changes in the regulatory environments of foreign countries. Special risks associated with investments in foreign markets include less liquidity, less developed or less efficient trading markets, lack of comprehensive company information, less government supervision of exchanges, brokers and issuers, greater risks associated with counterparties and settlement, and difficulty in enforcing contractual obligations. In addition,

changes in exchange rates and interest rates, and imposition of foreign taxes, may adversely affect the value of the Fund's foreign investments. Foreign companies are generally subject to different legal and accounting standards than U.S. companies, and foreign financial intermediaries may be subject to less supervision and regulation than U.S. financial firms. The Fund's investments in depository receipts (including ADRs and GDRs) are subject to these risks, even if denominated in U.S. Dollars, because changes in currency and exchange rates affect the values of the issuers of depository receipts. In addition, the underlying issuers of certain depository receipts, particularly unsponsored or unregistered depository receipts, are under no obligation to distribute shareholder communications to the holders of such receipts, or to pass through to them any voting rights with respect to the deposited securities. Many of the risks with respect to foreign investments are more pronounced for investments in developing or emerging market countries. Emerging markets tend to be more volatile than the markets of more mature economies, and generally have less diverse and less mature economic structures and less stable political systems than those of developed countries.

Emerging Markets Risk. To the extent that the Fund invests in emerging markets, an investment in the Fund may have the following additional risks: information about the companies in these countries is not always readily available; stocks of companies traded in these countries may be less liquid and the prices of these stocks may be more volatile than the prices of the stocks in more established markets; greater political and economic uncertainties exist in emerging markets than in developed foreign markets; the securities markets and legal systems in emerging markets may not be well developed and may not provide the protections and advantages of the markets and systems available in more developed countries; and very high inflation rates may exist in emerging markets and could negatively impact a country's economy and securities markets. For these and other reasons, the prices of securities in emerging markets can fluctuate more significantly than the prices of securities of companies in developed countries. The less developed the country, the greater effect these risks may have on your investment in the Fund. As a result, an investment in the Fund may exhibit a higher degree of volatility than either the general domestic securities market or the securities markets of developed foreign countries.

Currency Risk. The values of investments in securities denominated in foreign currencies increase or decrease as the rates of exchange between those currencies and the U.S. Dollar change. Currency conversion costs and currency fluctuations could erase investment gains or add to investment losses. Currency exchange rates can be volatile and are affected by factors such as general economic conditions, the actions of the United States and foreign governments or central banks, the imposition of currency controls, and speculation.

Initial Public Offerings Risk. The Fund may purchase securities of companies in IPOs. Special risks associated with these securities may include limited numbers of shares available for trading, unseasoned trading, lack of investor knowledge of the companies and the companies' limited operating histories. These factors may contribute to substantial price volatility for the shares of these companies. The limited number of shares available for trading in some IPOs may make it more difficult for the Fund to buy or sell significant amounts of shares without an unfavorable impact on prevailing market prices. Some companies whose shares are sold through IPOs are involved in relatively new industries or lines of business, which may not be widely understood by investors. Some of these companies may be undercapitalized or regarded as developmental stage companies without revenues or operating income, or the near-term prospects of achieving them.

Non-Diversification Risk. The Fund is classified as "non-diversified," which means the Fund may invest a larger percentage of its assets in the securities of a smaller number of issuers than a diversified fund. Investment in securities of a limited number of issuers exposes the Fund to greater market risk and potential losses than if its assets were diversified among the securities of a greater number of issuers. However, the Fund will comply with certain diversification requirements imposed by the Internal Revenue Code.

For further information about the risks of investing in the Fund, please see the Fund's SAI.

MANAGEMENT OF THE FUND

The Investment Adviser

The Fund's investment adviser is Kinetics Asset Management LLC ("Kinetics" or the "Investment Adviser"), 470 Park Avenue South New York, New York 10016. Founded in 1996, the Investment Adviser provides investment advisory services to a family of nine mutual funds with discretionary management authority over approximately \$1.62 billion in assets as of March 31, 2018. The Investment Adviser is a wholly-owned subsidiary of Horizon Kinetics LLC.

The Investment Adviser conducts investment research and supervision for the Fund and is responsible for the purchase and sale of securities for the Fund. The Investment Adviser is entitled to receive an annual fee from the Fund, for its services of 1.00% of the Fund's average daily net assets. However, as a result of fee waivers, the advisory fees paid to the Investment Adviser for the fiscal year ended December 31, 2017 was 0.43%, annualized.

Kinetics, as the Investment Adviser to the Fund, is engaged in a broad range of portfolio management, portfolio advisory and other business activities. Their services are not exclusive to the Fund and nothing prevents them, or any affiliates, from providing similar services to other investment funds and other clients (whether or not their investment objectives, strategies, or criteria are similar to those of the Fund) or from engaging in other activities.

A discussion regarding the basis of the Board's approval of the Advisory Agreement is included in the Fund's annual report to shareholders dated December 31, 2017.

Portfolio Managers

Steven M. Bregman and Murray Stahl are jointly and primarily responsible for the day-to-day management of the Fund's portfolio. Mr. Bregman serves as the President and a Managing Director and Senior Portfolio Manager of Kinetics, and also is the President, a Managing Director and a member of the Board of Directors for Horizon Kinetics. Mr. Stahl serves as the Chief Investment Officer of Kinetics and Horizon Kinetics. He is also the Chairman of the Board of Directors for Horizon Kinetics. Messrs. Bregman and Stahl have been portfolio managers of the Fund since its inception in May 2007.

The SAI provides additional information about each portfolio manager's method of compensation, other accounts managed by the portfolio managers and the portfolio managers' ownership of Fund securities.

Fund Expenses

The Fund is responsible for its own operating expenses (all of which will be borne directly or indirectly by the Fund's shareholders), including among others, legal fees and expenses of counsel to the Fund and the Fund's independent directors; insurance (including directors' and officers' errors and omissions insurance); auditing and accounting expenses; taxes and governmental fees; listing fees; fees and expenses of the Fund's custodians, administrators, transfer agents, registrars and other service providers; expenses for portfolio pricing services by a pricing agent, if any; expenses in connection with the issuance and offering of shares; brokerage commissions and other costs of acquiring or disposing of any portfolio holding of the Fund; and any litigation expenses.

The Investment Adviser has contractually agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that the total annual fund operating expenses (excluding any front-end or contingent deferred loads, taxes, leverage interest, brokerage commissions, acquired fund fees and expenses as determined in accordance with Form N-1A, expenses incurred in connection with any merger or reorganization, and extraordinary expenses such as litigation expenses) do not exceed 1.50%, 2.25%, 1.25% and 1.45% of the average daily net assets of the Advisor Class A Shares, Advisor Class C Shares, Institutional Class Shares and No Load Class Shares, respectively. This agreement is in effect until September 30, 2019, and it may be

terminated before that date only by the Company's Board of Directors.

Any reduction in advisory fees or payment of the Fund's expenses made by the Investment Adviser in a fiscal year may be reimbursed by the Fund for a period ending three years after the date of reduction or payment if the Investment Adviser so requests. This reimbursement may be requested from the Fund if the aggregate amount of operating expenses for a fiscal year, as accrued each month, does not exceed the lesser of (a) the limitation on Fund expenses in effect at the time of the relevant reduction in advisory fees or payment of the Fund's expenses, or (b) the limitation on Fund expenses at the time of the request. However, the reimbursement amount may not exceed the total amount of fees waived/or Fund expenses paid by the Investment Adviser and will not include any amounts previously reimbursed to the Investment Adviser by the Fund. Any such reimbursement is contingent upon the Board's subsequent review of the reimbursed amounts and no reimbursement may cause the total operating expenses paid by the Fund in a fiscal year to exceed the applicable limitation on Fund expenses. The Fund must pay current ordinary operating expenses before the Investment Adviser is entitled to any reimbursement of fees and/or Fund expenses.

Portfolio Holdings Information

A description of the Fund's policies and procedures with respect to the disclosure of its portfolio securities is available in the Fund's SAI. Currently, disclosure of the Fund's holdings is required to be made quarterly within 60 days of the end of each fiscal quarter in the annual report and semi-annual report to Fund shareholders and in the quarterly holdings report on Form N-Q (first and third quarters). The annual and semi-annual reports are available by contacting Kinetics Mutual Funds, Inc., c/o U.S. Bancorp Fund Services, LLC, P.O. Box 701, Milwaukee, Wisconsin 53201-0701 or calling 1-800-930-3828. In addition, the Company may publish on its webpage (www.kineticsfunds.com) month-end (a) top twenty portfolio holdings of the Fund and the percentage that each holding represents of the Fund's net assets and (b) top five performing and bottom five performing portfolio holdings of the Fund, in all cases no earlier than twenty calendar days after the end of each calendar month. This information will be available on the website until the date on which the Fund files its next quarterly portfolio holdings report on Form N-CSR or Form N-Q with the SEC or until the next month in which portfolio holdings are posted in accordance with the above policy.

Valuation of Fund Shares

Shares of each Class of the Fund are sold at net asset value ("NAV") per share plus any applicable sales charge (see "Description of Classes"). The NAVs are determined by the Fund as of the close of regular trading (generally 4:00 p.m. Eastern Time) on each day that the New York Stock Exchange (the "Exchange") is open for unrestricted business. Purchase and redemption requests are priced based on the next NAV per share calculated after receipt and acceptance of a completed purchase or redemption request. The NAV for each Class of shares of the Fund is determined by dividing the value of the Fund's securities, cash and other assets attributable to that Class, minus all expenses and liabilities attributable to that Class, by the number of shares outstanding of that Class. The NAV for a Class of shares of the Fund takes into account the expenses and fees of that Class, including management, administration, distribution and shareholder servicing fees, which are accrued daily.

The Fund's equity securities are valued each day at the last quoted market sale price on the securities' principal exchange. If there is no sales price, a security is valued at the last reported bid price. Securities listed on the NASDAQ Stock Market, Inc., however, are valued using the Nasdaq Official Closing Price ("NOCP"), and if no NOCP is available, then at the last reported bid price. If market quotations are not readily available or if events occur that may significantly affect the value of a particular security between the time trading ends on a particular security and the close of regular trading on the Exchange, securities will be valued at their fair market value as determined in good faith in accordance with procedures approved by the Company's Board of Directors. Situations involving significant events may include those where: a security's trading has been halted or suspended; the security has been de-listed from a national exchange; or the security has not been traded for an extended period of time. In addition, the prices of foreign securities may be affected by events

that occur after the close of a foreign market but before the Fund prices its shares. See “Trading in Foreign Securities.” The Fund may use independent pricing services to assist in calculating the NAV per share.

Futures, options on futures and swap contracts that are listed or traded on a national securities exchange, commodities exchange, contract market or over-the-counter markets and that are freely transferable will be valued at the composite price, using the National Best Bid and Offer quotes (“NBBO”). NBBO consists of the highest bid price and lowest ask price across any of the exchanges on which an option is quoted thus providing a view across the entire U.S. options marketplace. Composite option pricing calculates the mean of the highest bid price and lowest ask price across the exchanges where the option is traded. If a composite price is not available, then a quote provided by one of the authorized pricing vendors. If neither a composite price nor a quote from an authorized pricing provider is available, and it is the day of expiration or post-expiration, expiring options will be priced at intrinsic value. Non-exchange traded options also will be valued at the mean between the last bid and asked quotations. Securities that have no public market and all other assets of the Fund are considered at such value as the Investment Adviser may determine in good faith, in accordance with the Fund’s valuation procedures as approved by the Company’s Board of Directors.

The Fund’s debt obligations (including convertible securities) that are either investment grade or non-investment grade and irrespective of days to maturity are valued at evaluated mean by one of the authorized third party pricing agents which rely on various valuation methodologies such as matrix pricing and other analytical pricing models as well as market transactions and dealer quotations. Certain instruments such as repurchase agreements, demand notes, and money market mutual funds are traded at cost and there are no market values available for those instruments from third parties. Those instruments are priced at cost. Debt securities that are not priced by an independent third party pricing agent shall be valued (a) at the last sale price if such last sale occurred within the previous five business days, and (b) if there was no sale price during the previous five business days, at the average of the bids, or the sole bid if there is only one. Debt securities and other securities, which, in the judgment of the Investment Adviser, do not properly represent the value of a security will be valued at their fair market value as determined in good faith in accordance with procedures approved by the Company’s Board of Directors.

Fair valuation of securities introduces an element of subjectivity to the pricing of securities. As a result, the price of a security determined through fair valuation techniques may differ from the price quoted or published by other sources and may not accurately reflect the market value of the security when trading resumes. If a reliable market quotation becomes available for a security formerly valued through fair valuation techniques, the Investment Adviser compares the new market quotation to the fair value price to evaluate the effectiveness of the Fund’s fair valuation procedures.

Trading in Foreign Securities

Trading in foreign securities may be completed at times when the Exchange is closed. In computing the NAV per share of the Fund, the value of a foreign security is determined as of the close of trading on the foreign exchange on which it is principally traded or as of the scheduled close of trading on the Exchange, whichever is earlier, at the closing sales prices provided by approved pricing services or other alternate sources. In the absence of sales, the last available closing bid will be used. Securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith by or under the direction of the Company’s Board of Directors. Values of foreign securities are translated from the local currency into U.S. dollars on the basis of the foreign currency exchange rates, as provided by an independent pricing service or reporting agency, generally prior to the close of the Exchange. Occasionally, events affecting the value of foreign securities and such exchange rates occur between the time at which they are determined and the close of the Exchange, which events would not be reflected in the computation of the Fund’s NAV. If events materially affecting the value of such securities or currency exchange rates occur during such time period, the securities will be valued at their fair value as determined in good faith by or under the direction of the Company’s Board of Directors, as applicable.

How to Purchase Shares

In General

Shares of the Fund are sold at NAV plus any applicable sales charge, and will be credited to a shareholder's account based on the NAV per share next computed after an order and payment is received. The minimum initial investment for both regular accounts and individual retirement accounts is \$2,500 (\$2,000 for Coverdell Education Savings Accounts). There is no minimum on subsequent investments for all account types. The Company reserves the right to vary or waive any minimum investment requirement. The Fund reserves the right to reject any purchase order if, in its opinion, it is in the Fund's best interest to do so. A service fee of \$25 will be deducted from a shareholder's Fund account, in addition to any loss sustained by the Fund, for any purchases that do not clear. Your order will not be accepted until a completed New Account Application is received by the Fund or its transfer agent, U.S. Bancorp Fund Services, LLC (in such capacity, the "Transfer Agent").

Investing by Telephone

If you have accepted the Telephone and Internet Options on the applicable New Account Application (the "Application") and your account has been open for 15 days, you may purchase additional shares by telephoning the Fund toll free at 1-800-930-3828. This option allows investors to move money from their bank account to their Fund account upon request. Only bank accounts held at domestic institutions that are Automated Clearing House ("ACH") members may be used for telephone transactions. Your purchase will take place at the NAV per share plus any applicable sales charge determined on the day your order is placed, provided that your order is received prior to 4:00 p.m. Eastern Time.

During periods of high market activity, you may encounter higher than usual wait times. Please allow sufficient time to ensure that you will be able to complete your telephone transaction prior to market close. Once a telephone transaction has been placed, it cannot be canceled or modified, after the close of regular trading on the NYSE (generally, 4:00 p.m., Eastern Time).

There is no minimum on telephone purchases. You may not make your initial purchase of the Fund's shares by telephone.

Automatic Investment Plan

Once an account has been established, you may purchase shares of the Fund through an Automatic Investment Plan ("AIP"). You can have money automatically transferred from your checking, savings or bank money market account on a monthly basis. There is no minimum purchase amount in order to participate in the AIP.

To be eligible for the AIP, your bank must be a domestic institution that is an ACH member. If your bank rejects your payment, the Transfer Agent will charge a \$25 fee to your account. To begin participating in the AIP, please complete the AIP section on the Application or call the Transfer Agent at 1-800-930-3828 with any questions. The first AIP purchase will take place no earlier than 15 days after the Transfer Agent has received your request. Any request to change or terminate your AIP should be submitted to the Transfer Agent 5 days prior to the desired effective date of such change or termination. The Fund may modify or terminate the AIP at any time.

Purchase by Mail

To purchase the Fund's shares by mail, simply complete and sign the Application and mail it, along with a check made payable to [NAME OF FUND], c/o Kinetics Mutual Funds, Inc., to:

Regular Mail

Kinetics Mutual Funds, Inc.
[NAME OF FUND]
c/o U.S. Bancorp Fund Services, LLC
P.O. Box 701
Milwaukee, WI 53201-0701

Overnight or Express Mail

Kinetics Mutual Funds, Inc.
[NAME OF FUND]
c/o U.S. Bancorp Fund Services, LLC
615 East Michigan Street, 3rd Floor
Milwaukee, WI 53202

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services, or receipt at U.S. Bancorp Fund Services, LLC post office box, of purchase orders or redemption requests does not constitute receipt by the transfer agent of the Fund. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent's offices.

All purchases by check must be in U.S. dollars drawn on a bank located within the United States. The Fund will not accept payment in cash or money orders. To prevent check fraud, the Fund will not accept third party checks, Treasury checks, credit card checks, traveler's checks or starter checks for the purchase of shares. The Fund is unable to accept post-dated checks or any conditional order or payment.

Purchase by Wire

To open an account by wire, a completed Application is required before your wire can be accepted. You can mail or overnight deliver your Application to the Transfer Agent at the above address. Upon receipt of your completed Application, an account will be established for you. You will need to provide the assigned account number to your bank when instructing it to wire the funds. Your bank must include along with the wire the name of the Fund, the account number and your name so that monies can be correctly applied. To ensure proper application of wired funds, please call 1-800-930-3828 to notify the applicable Fund that the wire is coming. Wired funds must be received prior to 4:00 p.m. Eastern Time to be eligible for same day pricing. The Fund and U.S. Bank N.A. are not responsible for delays resulting from the banking or Federal Reserve wire system. Please use the following wiring instructions:

Wire to:U.S. Bank N.A.

- ▶ ABA Number:075000022
- ▶ Credit:U.S. Bancorp Fund Services, LLC
- ▶ Account:112-952-137
- ▶ Further Credit:Kinetics Mutual Funds, Inc.
[NAME OF FUND]
(Shareholder Name/Account Registration)
(Shareholder Account Number)

Subsequent Investments

You may add to your account at any time by purchasing shares by mail, by telephone, or by wire. You may also purchase additional shares online if you have established an online account. To purchase by mail, submit your check with the Invest by Mail form attached to your most recent confirmation statement received from the Transfer Agent. If you do not have the Invest by Mail form, include the Fund name, your name, address, and account number on a separate piece of paper along with your check. To purchase by telephone, call 1-800-930-3828 prior to 4:00 p.m. Eastern Time to place your order. To ensure proper application of wired funds, please call 1-800-930-3828 to notify the Fund that the wire is coming. All purchase requests must include your shareholder account number.

Individual Retirement Accounts

You may invest in any Fund by establishing a tax-sheltered IRA. The Fund offers Traditional IRA, Roth IRA, SEP IRA, SIMPLE IRA, and Coverdell Education Savings Accounts. For additional information on IRA options, please call 1-800-930-3828.

Investing Through Brokers or Agents

You may invest in the Fund through brokers or agents who have entered into selling agreements with the Fund's distributor. The broker or agent may set their own initial and subsequent investment minimums. You may be charged a fee if you use a broker or agent to buy or redeem shares of the Fund. A financial intermediary may impose different sales charge discounts. **Sales charge discount variations specific to financial intermediaries are described in Appendix A to this Prospectus - Financial Intermediary Sales Charge Variations ("Appendix A").**

How to Redeem Shares

In General

You may redeem part or all of your shares of the Fund on any business day that the Fund calculates its NAV per share. To redeem shares, you must contact the Fund in which you are invested either by mail or by phone to place a redemption order. Redemption requests may also be placed online if you have established an online account. You should request your redemption prior to market close to obtain that day's closing NAV. Redemption requests received after the close of the Exchange will be treated as though received on the next business day.

The Fund will generally send redemption proceeds the next business day and, in any event, no later than seven days after the receipt of a redemption request in "good order" (see below). The Fund typically sends the redemption proceeds on the next business day (a day when the NYSE is open for normal business) after the redemption request is received in good order and prior to market close, regardless of whether the redemption proceeds are sent via check, wire, or automated clearing house (ACH) transfer. Under unusual circumstances, the Fund may suspend redemptions, or postpone payment for up to seven days, as permitted by federal securities law. Please note, however, that when a purchase order has been made by check or electronic funds transfer through the ACH network, the Fund will not be able to send your redemption proceeds until the purchase amount has cleared. This may take up to 12 calendar days.

The Fund typically expects to meet redemption requests by paying out proceeds from cash or cash equivalent portfolio holdings, or by selling portfolio holdings. In stressed market conditions, redemption methods may include redeeming in kind.

Redemption proceeds may be sent to the address of record, wired to a shareholder's bank account of record, or sent via electronic funds transfer through the ACH network to the shareholder's bank account of record. Wires are subject to a \$15 fee paid by the investor, but the investor does not incur any charge when proceeds are sent via the ACH system. If the redemption proceeds are requested to be sent to an address other than the address of record, or if the address of record has been changed within 15 days of the redemption request, the request must be in writing with your signature guaranteed. Signature guarantees can be obtained from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings association, as well as from participants in the New York Stock Exchange Medallion Signature Program and the Securities Transfer Agents Medallion Program ("STAMP"), *but not from a notary public*. The Fund will not be responsible for interest lost on redemption amounts due to lost or misdirected mail.

A signature guarantee, from either a Medallion program member or a non-Medallion program member, of each owner is required in the following situations:

- If you are requesting a change in account ownership;
- When redemption proceeds are payable or sent to any person, address or bank account not on record;
- Written requests to wire redemption proceeds (if not previously authorized on the account); and
- When a redemption request is received by the Transfer Agent and the account address has changed within the last 15 calendar days.

Non-financial transactions, including establishing or modifying certain services on an account, may require a signature guarantee, signature verification from a Signature Validation Program member, or other acceptable form of authentication from a financial institution source. In addition to the situations described above, the Fund and/or the Transfer Agent reserve the right at their discretion to require a signature guarantee or signature validation in other circumstances. The Fund reserves the right to waive any signature guarantee requirement at its/their discretion.

Written Redemption

You can execute most redemptions by furnishing an unconditional written request to the Fund in which you

are invested to redeem your shares at the current NAV per share. Redemption requests in writing should be sent to the Transfer Agent at:

Regular Mail

Kinetics Mutual Funds, Inc.
[NAME OF FUND]
c/o U.S. Bancorp Fund Services, LLC
P.O. Box 701
Milwaukee, WI 53201-0701

Overnight or Express Mail

Kinetics Mutual Funds, Inc.
[NAME OF FUND]
c/o U.S. Bancorp Fund Services, LLC
615 East Michigan Street, 3rd Floor
Milwaukee, WI 53202

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services, or receipt at U.S. Bancorp Fund Services, LLC post office box, of purchase orders or redemption requests does not constitute receipt by the transfer agent of the Fund. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent's offices.

Requests for redemption in "good order" must:

- indicate the name of the Fund;
- be signed exactly as the shares are registered, including the signature of each owner (including a signature guarantee when required);
- specify the number of shares or dollar amount to be redeemed; and
- indicate your account registration number.

Telephone Redemption

If you are authorized to perform telephone transactions (either through your Application or by subsequent arrangement in writing with the Fund) you may redeem shares in any amount by instructing the Fund in which you are invested by phone at 1-800-930-3828. A signature guarantee or signature validation may be required of all shareholders in order to add or change telephone redemption privileges on an existing account.

Note: Neither the Fund nor any of its service providers will be liable for any loss or expense in acting upon instructions that are reasonably believed to be genuine. To confirm that all telephone instructions are genuine, the Fund will use reasonable procedures, such as requesting:

- your Fund account number;
- the name in which your account is registered;
- the social security or tax identification number under which the account is registered; and
- the address of the account holder, as stated in the Application.

Note: If an account has more than one owner or authorized person, the Fund will accept telephone instructions from any one owner or authorized person.

During periods of high market activity, you may encounter higher than usual wait times. Please allow sufficient time to ensure that you will be able to complete your telephone transaction prior to market close. If you are unable to contact the Fund by telephone, you may make your redemption request in writing. Once a telephone transaction has been placed, it cannot be canceled or modified after the close of regular trading on the NYSE (generally, 4:00 p.m., Eastern time).

Wire Redemption

Wire transfers may be arranged to redeem shares. However, the Transfer Agent charges a \$15 fee per wire redemption against your account for this service. There is no minimum on wire redemptions.

Systematic Withdrawal Plan

If you own shares with a value of \$10,000 or more (\$5,000,000 for Institutional Class shares), you may

participate in the Systematic Withdrawal Plan. The Systematic Withdrawal Plan allows you to make automatic withdrawals from your account at regular intervals (monthly, quarterly or annually). Proceeds can be mailed via check to the address of record, or sent via electronic funds transfer through the ACH system to your bank account if your bank is an ACH system member. If the date you select to have the withdrawal made is a weekend or holiday, the redemption will be made on the next business day. Money will be transferred from your Fund account to the account you chose at the interval you select on the Application. If you expect to purchase additional shares of the Fund, it may not be to your advantage to participate in the Systematic Withdrawal Plan because of the possible adverse tax consequences of making contemporaneous purchases and redemptions. There is no minimum on systematic withdrawals. Any request to change or terminate your Systematic Withdrawal Plan should be submitted to the Transfer Agent five days prior to the next scheduled withdrawal.

The Fund's Right to Redeem an Account

The Fund reserves the right to redeem the shares of any shareholder, other than a shareholder who is an active participant in the AIP, whose account balance is less than \$1,000, other than as a result of a decline in the NAV of the Fund. The Fund will provide shareholders with written notice 30 days prior to redeeming the shareholder's account.

IRA Redemption

If you are redeeming shares from an IRA, you must indicate on your written redemption request whether or not to withhold federal income tax. Requests that do not indicate a preference will be subject to withholding. Shares held in IRA accounts may be redeemed by telephone at 1-800-930-3828. Investors will be asked whether or not to withhold taxes from any distribution.

Householding

By signing the Application, you acknowledge and consent to the householding (*i.e.*, consolidation of mailings) of regulatory documents such as prospectuses, shareholder reports, proxies, and other similar documents. In an effort to decrease costs, the Fund will reduce the number of duplicate prospectuses and annual and semi-annual reports you receive by sending only one copy of each to those addresses shared by two or more accounts. Call toll-free at 1-800-930-3828 to request individual copies of these documents. The Fund will begin sending individual copies 30 days after receiving your request. This policy does not apply to account statements.

Shareholder Inactivity/Lost Shareholder

It is important that the Fund maintains a correct address for each investor. An incorrect address may cause an investor's account statements and other mailings to be returned to the Fund. Based upon statutory requirements for returned mail, the Fund will attempt to locate the investor or rightful owner of the account. If the Fund is unable to locate the investor, then they will determine whether the investor's account can legally be considered abandoned. The Fund is legally obligated to escheat (or transfer) abandoned property to the appropriate state's unclaimed property administrator in accordance with statutory requirements. The investor's last known address of record determines which state has jurisdiction. Under certain circumstances, if no activity occurs in an account within a time period specified by state law, your shares in the Fund may be transferred to that state. Please contact the Transfer Agent toll-free at 1-800-930-3828 at least annually to ensure your account remains in active status.

If you are a resident of the state of Texas, you may designate a representative to receive notifications that, due to inactivity, your mutual fund account assets may be delivered to the Texas Comptroller. Please contact the Transfer Agent if you wish to complete a Texas Designation of Representative form.

Redemption Fees

The Fund is designed for long-term investors willing to accept the risks associated with a long-term investment. In accordance with policies and procedures adopted by the Board of Directors of the Company, frequent purchases and redemptions of Fund shares are not encouraged but are generally permitted by the Fund. Such purchases and redemptions may have an adverse effect on other Fund shareholders, including,

without limitation, the possibility of disrupting portfolio management strategies, increasing brokerage and administrative costs, harming Fund performance and possible dilution of the value of Fund shares held by long-term shareholders. The Company may, in its sole discretion, reject purchase orders when, in the judgment of management, such rejection is in the best interest of the Fund and its shareholders. The Fund assess a 2.00% fee on the redemption or exchange of Fund shares held for 30 days or less from the date of purchase. These fees are paid to the Fund to help offset any potential transaction costs.

The Fund will use the first-in, first-out method to determine the 30 day holding period. Under this method, the date of the redemption or exchange will be compared to the earliest purchase date of shares held in the account. If this holding period is 30 days or less, the redemption fee will be assessed.

The redemption fee will not apply to any shares purchased through reinvested distributions (dividends and capital gains), or to redemptions made under the Fund's systematic programs, as these transactions are typically de minimis. This fee will also not be assessed to the participants in employer-sponsored retirement plans that are held at the Fund in an omnibus account (such as 401(k), 403(b), 457, Keogh, Profit Sharing Plans, and Money Purchase Pension Plans) or to accounts held under trust agreements at a trust institution held at the Fund in an omnibus account. The redemption fee will also not be assessed to accounts of the Investment Adviser or its affiliates used to capitalize the Fund as such accounts will be used specifically to control the volatility of shareholder subscriptions and redemptions to avoid adverse effects to the Fund. In addition, the Fund is authorized to waive redemption fees for redemptions effected pursuant to asset allocation programs, wrap fee programs, other investment programs offered by financial institutions, and the Company reserves the right to lower or waive any redemption fee. Although frequent purchases and redemptions of Fund shares are generally permitted, the Fund only intends to waive redemption fees for redemptions the Fund reasonably believes do not raise frequent trading or market timing concerns.

The Fund reserves the right to modify or eliminate the redemption fees or waivers at any time and will give shareholders 60 days' prior written notice of any material changes, unless otherwise provided by law. The redemption fee policy may be modified or amended in the future to reflect, among other factors, regulatory requirements mandated by the SEC.

Currently, the Fund is limited in its ability to assess or collect the redemption fee on all shares redeemed by financial intermediaries on behalf of its customers. For example, where a financial intermediary is not able to determine if the redemption fee applies and/or is not able to assess or collect the fee, or does not collect the fee at the time of redemption, the Fund will not receive the redemption fee. If Fund shares are redeemed by a financial intermediary at the direction of its customers, the Fund may not know whether a redemption fee is applicable or the identity of the customer who should be assessed the redemption fee. Due to operational differences, a financial intermediary's methods for tracking and calculating the redemption fee may differ in some respects from that of the Fund. If necessary, the Fund may prohibit additional purchases of Fund shares by a financial intermediary or by certain of the intermediaries' customers.

Notice of Customer Verification

In compliance with the USA PATRIOT Act of 2001, please note that the Transfer Agent will verify certain information on your Application as part of the Fund's Anti-Money Laundering Program. As requested on the Application, you must supply your full name, date of birth, social security number and permanent street address. Effective May 11, 2018, if you are opening the account in the name of a legal entity (*e.g.*, partnership, limited liability company, business trust, corporation, etc.), you must also supply the identity of the beneficial owners. Mailing addresses containing only a P.O. Box will not be accepted. Please contact the Transfer Agent at 1-800-930-3828 if you need additional assistance when completing your Application.

If we do not have a reasonable belief as to the identity of a shareholder, the account will be rejected or you will not be allowed to perform a transaction on the account until such information is received. The Fund also reserves the right to close the account within five business days if clarifying information/documentation is not received.

Exchange Privilege

If you have accepted the Telephone and Internet Options on the Application, you can exchange your shares in any Fund for shares of the same class of any other Fund offered by the Company, (e.g., Advisor Class A shares for Advisor Class A shares). If the exchange is requested via telephone, a \$5 per exchange transaction cost will be assessed. You should carefully read the Prospectus of the Fund before exchanging shares into that Fund. Be advised that exercising the exchange privilege consists of two transactions: a sale of shares in one Fund and the purchase of shares in another Fund. Therefore, an exchange of Fund shares held for 30 days or less may be subject to a 2.00% redemption fee. See “Redemption Fees” above. Further, exchanges may have certain tax consequences and you could realize short- or long-term capital gains or losses. Exchanges are generally made only between identically registered accounts unless you send written instructions with a signature guarantee requesting otherwise. You should request your exchange prior to market close to obtain that day’s closing NAV. Exchange requests received after the close of the Exchange will be treated as though received on the next business day. In all cases, shareholders will be required to pay a sales charge only once.

Call 1-800-930-3828 to learn more about the other funds or classes offered by the Company and about exercising your exchange privilege.

Distributions and Taxes

Distributions

Distributions (whether treated for tax purposes as ordinary income or long-term capital gains) to shareholders of the Fund are generally paid in additional shares of the same Class of the Fund in which shareholders are already invested, with no sales charge, based on the NAV per share of that Class as of the close of business on the record date for such distributions. However, you may elect on the Application to receive distributions as follows:

Option 1: To receive income dividends and capital gain distributions in additional Fund shares, or

Option 2: To receive all income dividends and/or capital gain distributions in cash.

You may change your dividend and capital gain distribution election in writing or by calling the Transfer Agent in advance of the next distribution.

The Fund intends to pay any dividends from investment company taxable income and distributions representing capital gain at least annually, usually in December. The Fund will advise each shareholder annually of the amounts of dividends from investment company taxable income and of net capital gain distributions reinvested or paid in cash to the shareholder during the calendar year.

If you select Option 2 and the U.S. Postal Service cannot deliver your distribution checks, or if your distribution checks remain uncashed for six months, your distribution checks will be reinvested in your account at the then current NAV of the appropriate Fund and your election will be converted to the purchase of additional shares.

Taxes

The following is a summary of certain United States tax considerations relevant under current law, which may be subject to change in the future. Except where otherwise indicated, the summary assumes you are a U.S. citizen or resident or otherwise subject to U.S. federal income tax. You should consult your tax adviser for further information regarding federal, state, local and/or foreign tax consequences relevant to your specific situation.

Fund Distributions

The Fund has qualified and intends to continue to qualify for federal tax purposes as a regulated investment company and to distribute substantially all of its taxable income, including its net capital gain (the excess of net long-term capital gain over net short-term capital loss). Except as otherwise noted below, you will generally be subject to federal income tax on Fund distributions to you regardless whether they are paid in

cash or reinvested in additional shares. Fund distributions attributable to short-term capital gains and net investment income will generally be taxable to you as ordinary income, except as discussed below.

Distributions attributable to the net capital gain of the Fund generally are taxable to you as long-term capital gain, regardless of how long you have held your shares. The maximum long-term capital gain rate applicable to individuals, estates and trusts is currently 23.8% (which includes a 3.8% Medicare tax).

Distributions of “qualifying dividends” will also generally be taxable to you at long-term capital gain rates, as long as certain requirements are met. In general, if 95% or more of the gross income of the Fund (other than net capital gain) consists of dividends received from domestic corporations or “qualified” foreign corporations (“qualifying dividends”), then all distributions paid by the Fund to individual shareholders will be taxed at long-term capital gain rates. But if less than 95% of the gross income of the Fund (other than net capital gain) consists of qualifying dividends, then distributions paid by the Fund to individual shareholders will be qualifying dividends only to the extent they are derived from qualifying dividends earned by the Fund. For the lower rates to apply, you must have owned your Fund shares for at least 61 days during the 121-day period beginning on the date that is 60 days before the Fund’s ex-dividend date (and the Fund will need to have met a similar holding period requirement with respect to the shares of the corporation paying the qualifying dividend). The amount of the Fund’s distributions that qualify for this favorable treatment may be reduced as a result of the Fund’s securities lending activities (if any), a high portfolio turnover rate or investments in debt securities or non-qualified foreign corporations.

Distributions from the Fund will generally be taxable to you in the taxable year in which they are paid, with one exception. Distributions declared by the Fund in October, November or December and paid in January of the following year are taxed as though they were paid on December 31. You will be notified annually of the tax status of distributions to you.

A portion of distributions attributable to investments in U.S. corporations paid by the Fund to shareholders who are corporations may also qualify for the dividends-received deduction for corporations, subject to certain holding period requirements and debt financing limitations. The amount of such dividends qualifying for this deduction may, however, be reduced as a result of the Fund’s securities lending activities (if any), by a high portfolio turnover rate or by investments in debt securities.

You should note that if you purchase shares just before a distribution, the purchase price will reflect the amount of the upcoming distribution, but you will be taxed on the entire amount of the distribution received, even though, as an economic matter, the distribution simply constitutes a return of capital. This adverse tax result is known as “buying into a dividend.”

Sales and Exchanges

You will generally recognize taxable gain or loss for federal income tax purposes on a sale, exchange or redemption of your shares in the Fund, including an exchange of shares pursuant to the Fund’s exchange privilege, based on the difference between your tax basis in the shares and the amount you receive for them. Generally, you will recognize long-term capital gain or loss if you have held your Fund shares for over twelve months at the time you dispose of them.

Any loss realized on shares held for six months or less will be treated as a long-term capital loss to the extent of any capital gain dividends that were received on the shares. Additionally, any loss realized on a disposition of shares of the Fund may be disallowed under “wash sale” rules to the extent the shares disposed of are replaced with other shares of the Fund within a period of 61 days beginning 30 days before and ending 30 days after the shares are disposed of, such as pursuant to a dividend reinvestment in shares of the Fund. If disallowed, the loss will be reflected in an upward adjustment to the basis of the shares acquired.

For shares acquired on or after January 1, 2012, the Fund (or relevant broker or financial adviser) are required to compute and report to the Internal Revenue Service (“IRS”) and furnish to Fund shareholders cost basis information when such shares are sold or exchanged. The Fund has elected to use the average cost method,

unless you instruct the Fund to use a different IRS-accepted cost basis method, or choose to specifically identify your shares at the time of each sale or exchange. If your account is held by your broker or other financial adviser, they may select a different cost basis method. In these cases, please contact your broker or other financial adviser to obtain information with respect to the available methods and elections for your account. You should carefully review the cost basis information provided by the Fund and make any additional basis, holding period or other adjustments that are required when reporting these amounts on your federal and state income tax returns. Fund shareholders should consult with their tax advisers to determine the best IRS-accepted cost basis method for their tax situation and to obtain more information about how the cost basis reporting requirements apply to them.

IRAs and Other Tax-Qualified Plans

One major exception to the preceding tax principles is that distributions on, and sales, exchanges and redemptions of, shares held in an IRA (or other tax-qualified plan) will not be currently taxable unless such shares were acquired with borrowed funds.

Backup Withholding

On the Application, you will be asked to certify that your social security number or taxpayer identification number is correct and that you are not subject to backup withholding. If you (i) fail to provide a correct taxpayer identification number in the manner required; (ii) are subject to backup withholding by the IRS for failure to properly include on your return payments of taxable interest or dividends; or (iii) fail to certify that you are not subject to backup withholding when required to do so or that you are an “exempt recipient,” the IRS may, in certain cases, require the Fund to withhold a percentage of dividends or redemption or exchange proceeds. The Fund reserves the right to reject any application that does not include a certified social security or taxpayer identification number. The current backup withholding rate is 24%.

U.S. Tax Treatment of Foreign Shareholders

Generally, nonresident aliens, foreign corporations and other foreign investors are subject to 30% withholding tax on dividends paid by a U.S. corporation, although the rate may be reduced for an investor that is a qualified resident of a foreign country with an applicable tax treaty with the United States (provided that the shareholder furnishes the Fund with a properly completed Form W-8BEN or W-8BEN-E, as applicable, to establish entitlement for these treaty benefits). In the case of a regulated investment company such as the Fund, however, certain categories of dividends are exempt from the 30% withholding tax. These generally include dividends attributable to the Fund’s net capital gains (the excess of net long-term capital gains over net short-term capital loss), dividends attributable to the Fund’s interest income from U.S. obligors and dividends attributable to net short-term capital gains of the Fund.

Foreign shareholders will generally not be subject to U.S. tax on gains realized on the sale, exchange or redemption of shares in the Fund, except that a nonresident alien individual who is present in the United States for 183 days or more in a calendar year will be taxable on such gains and on capital gain dividends from the Fund.

In contrast, if a foreign investor conducts a trade or business in the United States and the investment in the Fund is effectively connected with that trade or business, then the foreign investor’s income from the Fund will generally be subject to U.S. federal income tax at graduated rates in a manner similar to the income of a U.S. citizen or resident.

The Fund will also generally be required to withhold 30% tax on certain payments to foreign entities that do not provide a Form W-8BEN-E that evidences their compliance with, or exemption from, specified information reporting requirements under the Foreign Account Tax Compliance Act.

All foreign investors should consult their own tax advisers regarding the tax consequences in their country of residence of an investment in the Fund.

State and Local Taxes

You may also be subject to state and local taxes on distributions, sales, exchanges and redemptions. State income taxes may not apply, however, to any portions of the Fund's distributions, if any, that are attributable to interest on U.S. Government securities or interest on securities of the particular state or localities within the state in which you live. You should consult your tax adviser regarding the tax status of distributions in your state and locality.

More tax information relating to the Fund is provided in the SAI.

Distribution of Shares

Rule 12b-1 Plan

The Fund has adopted separate Retail Distribution Plans pursuant to Rule 12b-1 under the 1940 Act, which allows the Fund to pay distribution fees for the sale and distribution of its Advisor Class A shares and Advisor Class C shares, respectively. Under the Plan for Advisor Class A shares, the Fund may pay as compensation up to an annual rate of 0.50% (currently limited to 0.25%) of the average daily NAV of Advisor Class A shares to the distributor or other qualified recipients under the Plan. Under the Plan for Advisor Class C shares, the Fund may pay as compensation up to an annual rate of 0.75% of the average daily NAV of Advisor Class C shares to the distributor. As these fees are paid out of the Fund's assets on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

Distributor

Kinetics Funds Distributor LLC ("KFD"), an affiliate of the Investment Adviser, 470 Park Avenue South, New York, New York 10016, is the distributor for the shares of the Fund. KFD is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. Shares of the Fund are offered on a continuous basis.

Shareholder Servicing Agents

Pursuant to separate shareholder servicing plans, the Investment Adviser is responsible for paying various shareholder servicing agents for performing shareholder servicing functions and maintaining shareholder accounts. These agents have written shareholder servicing agreements with the Investment Adviser and perform these functions on behalf of their clients who own shares of the Fund. For this service, the Investment Adviser receives an annual shareholder servicing fee from each Class equal to 0.25% of the Fund's average daily net assets attributable to that Class.

Arrangements with Certain Financial Institutions

The Investment Adviser and/or its affiliates may make payments to selected affiliated or unaffiliated broker-dealers and other financial institutions ("Financial Institutions") from time to time in connection with the sale, distribution, retention and/or servicing of shares of the Fund and other funds managed by the Investment Adviser or its affiliates. These payments are made out of the Investment Adviser's, and/or its affiliates', own assets and are not an additional charge to the Fund. The payments are in addition to the shareholder servicing fees described in this Prospectus. The amount of such payments may be significant in amount and the prospect of receiving any such payments may provide Financial Institutions or their employees with an incentive to favor sales of shares of the Fund over other investment options. You should contact your Financial Institution for more information about the payments it may receive and potential conflicts of interest.

Fund Administrator

U.S. Bancorp Fund Services, LLC ("USBFS") serves as administrator to the Fund.

Custodian, Transfer Agent, Dividend Disbursing Agent and Fund Accountant

U.S. Bank N.A. serves as Custodian for the Fund's cash and securities. The Custodian does not assist in, and is not responsible for, investment decisions involving assets of the Fund. USBFS acts as the Fund's Transfer Agent, Dividend Disbursing Agent and Fund Accountant.

Description of Classes

The Company has adopted a multiple class plan that allows the Fund to offer one or more classes of shares. The Fund has registered four classes of shares — Advisor Class A, Advisor Class C, Institutional and No Load. This Prospectus offers Advisor Class A, Advisor Class C, Institutional and No Load shares of the Fund. The different classes of shares represent investments in the same portfolio of securities, but the classes are subject to different expenses as discussed in this Prospectus and may have different share prices.

More About the Advisor Classes

This Prospectus offers two Advisor Classes of shares of the Fund – Advisor Class A shares and Advisor Class C shares. The Fund’s Advisor Classes of shares are sold through broker-dealers and other financial intermediaries that provide investment services to the Fund’s shareholders. You should always discuss with your broker-dealer or financial advisor the suitability of your investment.

Set forth below is information about the manner in which the Fund offers shares. A financial intermediary may offer Fund shares subject to variations in or elimination of the Fund sales charges (“variations”), provided such variations are described in Appendix A. All variations described in Appendix A are applied by the identified financial intermediary. Sales charge variations may apply to purchases, sales, exchanges and reinvestments of Fund shares and a shareholder transacting in Fund shares through an intermediary identified on Appendix A should read the terms and conditions of Appendix A carefully. A variation that is specific to a particular financial intermediary is not applicable to shares held directly with the Fund or through another intermediary. Please consult your financial intermediary with respect to any variations listed in Appendix A.

Advisor Class A Shares

Advisor Class A shares are retail shares that may be purchased by individuals or IRAs. With Advisor Class A shares, you will pay a sales charge when you invest unless you qualify for a reduction or waiver of the sales charge. Advisor Class A shares may impose a Rule 12b-1 fee of up to 0.50% (currently limited to 0.25%) of average daily net assets which is assessed against the Advisor Class A shares of the Fund.

If you purchase Advisor Class A shares of the Fund you will pay the NAV per share next determined after your order is received plus a sales charge (shown in percentages below) depending on the amount of your investment. The sales charge is calculated as follows:

Amount of Transaction		Sales Charge as a % of Offering Price	Sales Charge as a % of Net Asset Value	Dealers Reallowance as a % of Offering Price
At Least	But Less than			
\$0	\$50,000	5.75%	6.10%	5.25%
\$50,000	\$100,000	4.75%	4.99%	4.25%
\$100,000	\$250,000	3.75%	3.90%	3.25%
\$250,000	\$500,000	2.75%	2.83%	2.25%
\$500,000	\$1,000,000	2.25%	2.30%	1.75%
\$1,000,000	and above	0.00%	0.00%	0.00%*

* If you purchase \$1 million or more worth of Advisor Class A shares, you will pay no initial sales charge. A sales charge does not apply to shares that you purchase through reinvestment of dividends or distributions.

The Offering Price includes the sales charge paid at the time of investment. The distributor will receive all sales charges and Rule 12b-1 fees for the purchase of Advisor Class A shares of the Fund without a dealer of record.

Waivers – Advisor Class A Shares

You will not have to pay a sales charge on purchases of Advisor Class A shares if:

- You are an employee of a broker-dealer or agent that has a selling agreement with the distributor;

- ▶ You buy Advisor Class A shares under a wrap program or other all-inclusive fee program offered by your broker-dealer or agent; or
- ▶ The sales charge is waived by a broker-dealer or agent who has entered into an agreement with the Fund's distributor that allows for load-waived Advisor Class A shares purchases.

Please consult your broker-dealer or agent to determine whether you may be eligible for these waivers. For the sales charge variations applicable to shares offered through specific financial intermediaries, please see Appendix A.

Reducing Your Sales Charge – Advisor Class A Shares

You can reduce the sales charge on purchases of Advisor Class A shares by:

- ▶ purchasing larger quantities of shares or putting a number of purchases together to obtain the quantity discounts indicated above;
- ▶ signing a letter of intent that you intend to purchase more than \$50,000 worth of shares over the next 13 months (see “Letter of Intent – Advisor Class A Shares” below);
- ▶ using the reinvestment privilege which allows you to redeem shares and then immediately reinvest them without a sales charge within 60 days;
- ▶ combining concurrent purchases of Advisor Class A shares from different funds to obtain the quantity discounts indicated above; and
- ▶ through rights of accumulation as discussed below.

Please note that certain broker-dealers may reduce your sales charges under certain circumstances. Consult your broker-dealer.

Rights of Accumulation – Advisor Class A Shares

You may combine your new purchase of Advisor Class A shares with other Advisor Class A shares currently owned by you, your spouse, and/or your children under age 21 for the purpose of qualifying for the lower initial sales charge rates that apply to larger purchases. The applicable sales charge for the new purchase is based on the total of your current purchase and the current NAV of all other shares you, your spouse and/or your children under age 21 own. You may combine only the holdings at the firm at which you are making the current purchase for the right of accumulation sales charge reduction. You will need to notify the Fund or your financial intermediary at the time of purchase of any other accounts that exist.

Letter of Intent – Advisor Class A Shares

By signing a Letter of Intent (“LOI”) you can reduce your Advisor Class A sales charge. Your individual purchases will be made at the applicable sales charge based on the amount you intend to invest over a 13-month period. The LOI will apply to all purchases of Advisor Class A shares. Any shares purchased within 90 days of the date you sign the letter of intent may be used as credit toward completion, but the reduced sales charge will only apply to new purchases made on or after that date. Purchases resulting from the reinvestment of dividends and capital gains do not apply toward fulfillment of the LOI. Shares equal to 5.75% of the amount of the LOI will be held in escrow during the 13-month period. If, at the end of that time the total amount of purchases made is less than the amount intended, you will be required to pay the difference between the reduced sales charge and the sales charge applicable to the individual purchases had the LOI not been in effect. This amount will be obtained from redemption of the escrow shares. Any remaining escrow shares will be released to you.

If you establish an LOI with the Fund, you can aggregate your accounts as well as the accounts of your immediate family members under age 21. You will need to provide written instruction with respect to the other accounts whose purchases should be considered in fulfillment of the LOI. You will need to notify the Fund or your financial intermediary at the time of purchase of any other accounts that exist.

Advisor Class C Shares

Advisor Class C shares are retail shares and may be purchased by individuals or IRAs. Advisor Class C shares

impose a Rule 12b-1 fee of 1.00% of average daily net assets.

If you purchase Advisor Class C shares of the Fund, you will pay the NAV per share next determined after your order is received. There is no initial sales charge on this Class at the time you purchase your shares. The distributor may pay your broker or agent a 1.00% up-front sales commission, which includes an advance of the first year's Rule 12b-1 fees and shareholding servicing fees. The distributor will retain Rule 12b-1 fees and shareholder servicing fees in the first year to reimburse itself for paying your broker or agent the 1.00% up-front sales commission.

If you sell your Advisor Class C shares within 12 months of purchase, you will have to pay a contingent deferred sales charge of 1.00%, which is applied to the NAV of the shares on the date of original purchase or on the date of redemption, whichever is less. A financial intermediary may impose different CDSC waivers. CDSC waiver variations specific to certain financial intermediaries are described in Appendix A.

The distributor will receive all sales charges and Rule 12b-1 fees for the purchase of Advisor Class C shares of the Fund without a dealer of record.

Additional information regarding sales load breakpoints is available in the Fund's SAI. The Fund also provides information regarding the purchase of shares, sales charges and breakpoint eligibility free of charge on their website, www.kineticsfunds.com.

Counsel and Independent Registered Public Accounting Firm

Legal matters in connection with the issuance of shares of common stock of the Fund are passed upon by Drinker Biddle & Reath LLP, One Logan Square, Suite 2000, Philadelphia, PA 19103-6996.

Tait, Weller & Baker LLP, 1818 Market Street, Suite 2400, Philadelphia, PA 19103, is the independent registered public accounting firm for the Fund.

Description of Index

The S&P 500[®] Index is an unmanaged index created by Standard & Poor's Corporation that is considered to represent U.S. stock market performance in general. The Index is not an investment product available for purchase and does not include any deduction for fees, expenses or taxes.

Financial Highlights

The financial highlights tables set forth below are intended to help you understand the Fund's and the Predecessor Fund's financial performance for the last five fiscal years. Most of the information reflects financial results with respect to a single Fund share. The total returns in the tables represent the rates that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions).

The financial information provided was audited by Tait, Weller & Baker LLP, whose report, along with the Fund's financial statements, are included in the Fund's annual report and incorporated by reference into the SAI, both of which are available upon request.

FINANCIAL HIGHLIGHTS

The following table is intended to help you understand the Fund's financial performance. The financial information shown prior to December 11, 2017 is that of the Predecessor Fund. Certain information reflects financial results for a single Fund class share. The total return figures represent the percentage that an investor in the Fund would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). The financial information for the periods shown has been audited by Tait, Weller & Baker LLP, an independent registered public accounting firm, whose report, along with the Fund's financial statements, is included in the Fund's annual report, which is available upon request.

Appendix A

Financial Intermediary Sales Charge Variations

The availability of certain sales charge waivers and discounts will depend on whether you purchase your shares directly from the Fund or through a financial intermediary. Specific intermediaries may have different policies and procedures regarding the availability of front-end sales charge waivers or CDSC waivers, which are discussed below. In all instances, it is the shareholder's responsibility to notify the Fund or the shareholder's financial intermediary at the time of purchase of any relationship or other facts qualifying the purchaser for sales charge waivers or discounts. For waivers and discounts not available through a particular intermediary listed below, shareholders will have to purchase Fund shares directly from the Fund or through another intermediary to receive Fund imposed waivers or discounts. Please see "Description of Classes" starting on page 29 of this Prospectus for information about such waivers and discounts.

Merrill Lynch, Pierce, Fenner & Smith Incorporated ("Merrill Lynch")

Shareholders purchasing Fund shares through a Merrill Lynch platform or account will be eligible only for the following sales charge waivers (front-end sales charge waivers and contingent deferred, or back-end, sales charge waivers) and discounts, which may differ from those disclosed elsewhere in the Fund's Prospectus or SAI.

Front-end Sales Charge Waivers on Class A Shares available at Merrill Lynch

The front-end sales charge on Advisor Class A shares of the Fund available through Merrill Lynch are waived for the following purchases:

- Employer-sponsored retirement, deferred compensation and employee benefit plans (including health savings accounts) and trusts used to fund those plans, provided that the plan is a group plan (more than one participant), the shares are not held in a commission-based brokerage account and shares are held in the name of the plan through an omnibus account.
- Shares purchased by or through a 529 Plan
- Shares purchased through a Merrill Lynch affiliated investment advisory program
- Shares purchased by third party investment advisors on behalf of their advisory clients through Merrill Lynch's platform
- Shares of funds purchased through the Merrill Edge Self-Directed platform
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the Kinetics Mutual Funds family)
- Shares exchanged from Class C shares of the same fund in the month of or following the 10-year anniversary of the purchase date
- Employees and registered representatives of Merrill Lynch or its affiliates and their family members
- Directors of the Fund, and employees of the Fund's investment adviser or any of its affiliates, as described in this Prospectus
- Shares purchased from the proceeds of redemptions within the same Kinetics Mutual Funds family, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Reinstatement)

CDSC Waivers on Advisor Class A and Advisor Class C Shares available at Merrill Lynch

- Death or disability of the shareholder
- Shares sold as part of a systematic withdrawal plan as described in the Fund's Prospectus
- Return of excess contributions from an IRA Account

CDSC Waivers on Advisor Class A and Advisor Class C Shares available at Merrill Lynch

- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching age 70½
- Shares sold to pay Merrill Lynch fees but only if the transaction is initiated by Merrill Lynch
- Shares acquired through a right of reinstatement
- Shares held in retirement brokerage accounts, that are exchanged for a lower cost share class due to transfer to a fee based account or platform (applicable to Advisor Class A and Advisor Class C shares only)

Front-end Sales Charge Discounts Available at Merrill Lynch: Breakpoints, Rights of Accumulation & Letters of Intent

- Breakpoints as described in this Prospectus.
- Rights of Accumulation (ROA) which entitle shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser's household at Merrill Lynch. Eligible fund family assets not held at Merrill Lynch may be included in the ROA calculation only if the shareholder notifies his or her financial advisor about such assets
- Letters of Intent (LOI) which allow for breakpoint discounts based on anticipated purchases within the Kinetics Mutual Funds family, through Merrill Lynch, over a 13-month period of time

Morgan Stanley Smith Barney LLC (“Morgan Stanley”)

Effective July 1, 2018, shareholders purchasing Fund shares through a Morgan Stanley Wealth Management transactional brokerage account will be eligible only for the following front-end sales charge waivers with respect to Class A shares, which may differ from and may be more limited than those disclosed elsewhere in this Fund's Prospectus or SAI.

Front-end Sales Charge Waivers on Class A Shares available at Morgan Stanley Wealth Management

- Employer-sponsored retirement plans (e.g., 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans
- Morgan Stanley employee and employee-related accounts according to Morgan Stanley's account linking rules
- Shares purchased through reinvestment of dividends and capital gains distributions when purchasing shares of the same fund
- Shares purchased through a Morgan Stanley self-directed brokerage account
- Class C (*i.e.*, level-load) shares that are no longer subject to a contingent deferred sales charge and are converted to Class A shares of the same fund pursuant to Morgan Stanley Wealth Management's share class conversion program
- Shares purchased from the proceeds of redemptions within the same fund family, provided (i) the repurchase occurs within 90 days following the redemption, (ii) the redemption and purchase occur in the same account, and (iii) redeemed shares were subject to a front-end or deferred sales charge.
